

Southeast Galt School Closure Review
Public Comments – January 18, 2012

Date	Affiliation	Comments	Response (if applicable)
2011.11.15	St. Anne	This is the ONLY school around here . closing it would be a bad move you have three schools that are very close together in this list close one of them . the kids around the st anns area will half to be bused the other ones can still walk... this is very unfair to this area ... PLEASE really reconsider colsing st anns My example would be to close either st vincent de paul or st ambrose both schools are close and the kids can walk	
2011.11.20	St. Vincent	I would like to receive email updates on the Southeast Galt School Closure Review. My child attends St. Vincent de Paul and I live on Langlaw Drive. My child loves attending this school and my youngest daughter will be starting school in 2 years and I want her to attend this school too. It would be very disappointing to see this school close or the boundaries change for my daughter or the rest of the kids on my street. Any information you can provide me with regarding this would be greatly appreciated.	
2011.11.23	Unknown	I know this review is looking at many different things. But can you tell me if the Board has already narrowed down which of the 5 schools is being considered for closure? At his point is it only 1 or 2 of them that are being looked at for possible closure? Just wondering if that part has already been established.	The only school that won't be considered for closure is Holy Spirit. The committee will start to look at options in March and could consider options that close 1, 2, or 3 schools in this area. Preliminary options will be presented at a public consultation session mid-April.
